

Outdoor smart LED-strip, RGB, 10m (2x5m)

SH-LS10M

Experience the ultimate outdoor lighting solution with our smart RGB LED-strip, offering both style and functionality. With its energy-efficient and easy-to-install design, you can enhance the ambiance of any space effortlessly. Boasting an IP65 classification, this LED-strip ensures water and dust resistance, making it the perfect choice for year-round use and unmatched durability. The two 5-meter strips have a flexible design, allowing you to easily shape them according to your needs.

With a remote control, you can switch between 20 different colors and 6 dynamic modes to create the perfect atmosphere. Whether you're looking for a calming blue, a romantic red, or a vibrant rainbow effect, our neon RGB LED-strip has got you covered. So why settle for boring, static lighting when you can have a neon RGB LED-strip?

With the DELTACO Smart Home app, you take care of all the management for your lights. Installation is quick and smooth without the need for special hubs or gateways - all you need is a working wireless network. In the app, you can control individual lamps separately or divide them into different rooms to easily manage a group of lamps. In addition to turning a light on or off, you can also set a timer if you want the light to turn off after a certain time. Alternatively, you can schedule specific times when it should be on or off.

In the app there is also the possibility to create automatic actions. For example, the light comes on when the sun has gone down, or if you want to group more lights together to do the same thing at a given time.

The DELTACO Smart Home app is available for free for both Android and iOS!

USP

- **Several smart functions (schedule, automation, tap-to-run)**
- **Compatible with voice-assistant, Amazon Alexa and Google Home**
- **Remote Control**
- **Fully custom RGB**
- **Addressable/moving function**
- **2x5m**
